DETAILED ACTION

EXAMINER'S AMENDMENT

Authorization for this examiner's amendment was given in a telephone interview with Marc A. Rossi on April 20, 2004.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 8-14 should be label as Prior Art. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
2. Claims 4 and 16 are cancel.

The following is an examiner's statement of reasons for allowance:

3. Prior Art doesn't show alone or in combination an actuator comprising a holding member disposed between the coil fitting arms, and extents into a through-hole to secure said holding member to a carriage, wherein the holding member is configured so that a bottom of the stepped portion is substantially flush with the bottom of the holding member, and said stepped portion is formed at each inner side of a pair of coil fitting arms that support said coil, and said stepped portion and each through-hole are filled with the resin forming said holding member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
